BRILLIANCE AUDIO, United States, 2016. CD-Audio. Book Condition: New. Unabridged. 170 x 135 mm. Language: English . Brand New. In *Battlefield America: The War on the American People*, the follow-up to his award-winning book *A Government of Wolves: The Emerging American Police State*, constitutional attorney John W. Whitehead paints a terrifying portrait of a nation at war with itself and which is on the verge of undermining the basic freedoms guaranteed to the citizenry in the Constitution. Indeed, police have been transformed into extensions of the military, towns and cities have become battlefields, and the American people have been turned into enemy combatants, to be spied on, tracked, scanned, frisked, searched, subjected to all manner of intrusions, intimidated, invaded, raided, manhandled, censored, silenced, shot at, locked up, and denied due process. Yet this police state did not come about overnight. As Whitehead notes, this shift into totalitarianism cannot be traced back to a single individual or event. Rather, the evolution has been so subtle that most American citizens were hardly even aware of it taking place. Yet little by little, police authority expanded, one weapon after another was added to the police arsenal, and one exception after another was made to the standards that have historically restrained police authority. Add to this mix the merger of Internet megacorporations with government intelligence agencies, and you have the making of an electronic concentration camp that not only sees the citizenry as databits but will attempt to control every aspect of their lives. And if someone dares to step out of line, they will most likely find an armed SWAT team at their door.
