Brand New Book ***** Print on Demand *****.Excerpt from Special Report on Glanders, 1906 It is not, however, necessary, to go to Great Britain for proof of the folly of ignoring the contact horse. Similar object; lessons are furnished by the conditions prevailing in more than one district in Canada, and while, of course, I cannot presume to speak authoritatively on these matters, I feel confident that in some of the United States of America Glanders is rapidly increasing owing to this cause. The evil is greatly intensified by the fact that, where the proper authorities are inert, private testing of infected studs is continually going on, the reactors being subsequently sold as expeditiously as possible. Prominent veterinarians in Great Britain credit these private Mallein tests, conducted by unscrupulous owners through equally unscrupulous practitioners, with the notoriously rapid spread of the disease in that country during recent years. The same thing is undoubtedly true in America, and here let me point out another condition which, taken in conjunction with the private test; constitutes an additional and very important factor in the spread of Glanders. I refer to the great facility with which, in these modern days of cheap steam transportation, horses may be moved in large numbers from place to place. While, especially in communities where mixed husbandry prevails, Glanders may never obtain a foothold, because in these districts horses from a distance are, with perhaps the exception of valuable and generally healthy breeding stock, but seldom introduced, I would remind you that the great fluctuations in the value of horse flesh during the decade just past have brought about the movement of large numbers of these animals from one district to another, and...
