Not illustrated. 1876 edition.

Excerpt: .Three distinct bald patches about scalp; the rest of hair profuse; no vegetable growth visible. D Case 9.--Alopecia syphilitica. Hair presenting a peculiar appearance from having a second or outside casing of epithelium covering a portion of the shaft: no spores or threads of fungus were found. Case 10.--Alopecia circumscripita. Several bald spots and grey patches throughout the scalp; hair distorted and deprived of colouring matter; a quantity of epithelium scales surrounded the shaft, but no vegetable growth. Case 11.--Alopecia circumscripita. Baldness confined to the head; hair broken and dirty, giving it a darkbrown colour; many of the broken hairs were covered by spores and mycelium. Case 12.--Alopecia complete. Nearly every part of the body denuded of hair, a few eyelashes remaining; no fungoid growth, although the patient seemed to be rather afraid of water. In the course of a few months a considerable...
